EXPERIENCE

Codesigned | Developer

November 2017 - Present   Atlanta, GA

- Provide client product support for SharePoint Applications by debugging the issue using HTML, CSS, and JavaScript.
- Collaborated with team members using jQuery and JavaScript to create new features for clients using SharePoint's API.
- Worked with team members as a team lead to implement product for client and held weekly check-ins with client.

DigitalCrafts | Full-Stack Web Developer

February 2017- June 2017   Atlanta, GA

- Learned Python and full-stack JavaScript, including Node.js, MySQL, Express, React, Redux HTML/CSS, and Amazon Web Services.

PROJECTS

NOT TODAY

- Created prototypes and engineered Not Today, a mental health companion app built with Ionic at a Women Who Code Hackathon.

HAMSTER WHEEL

- Online side scrolling game featuring a login/signup page, game screen with randomly generated obstacles, scoring system, and leaderboard displaying top 10 users.
- Built with JavaScript, jQuery, Node.js, Express, PostgreSQL, Ajax, HTML, Canvas, CSS.

FURRIENDSTER

- An app that locates pet owners around your area and provides nearby dog friendly parks. Users can also chat and create their pet profiles.
- Built with React/Redux, Express, PostgresSQL, Ajax, HTML, CSS, jQuery, and Socket.io
- Used Google maps API and Cloudinary API.
